Shabbat Shalom Family,

On July 29th we had a Blue Moon. Many people wrote me asking what this Blue Moon meant.

It means nothing because it is based on the Gregorian calendar. On the Gregorian calendar, a blue moon is the second full moon in the same month. On Yehovah's calendar there is only one full moon each month.

However, there was something special that did take place on this Blue Moon that was not expected.

Once again, we had a blood moon that was seen in many places around the world – a blood moon that was not expected. We just had a blood moon across the USA last month, which was caused by the wild fires in Canada – right after the Supreme Court decision to allow gay marriages. Now a month later, we have another unexpected blood moon and it is a blue moon, to boot. Two blood moons in the month of July.

Is Yehovah warning us of coming troubles?

In our video series we explain what the Blood Moon warns you of and we also show you what a Dark Moon is and what it warns you of. When I say dark moon, I do not mean the conjunction moon. A dark moon is a full moon that is not blood red but a very dark yellow, hence the name dark moon. You can watch it for free or order your own copy of the DVD.

We also have our e-book which you can order from our store on our web site. We show you what no one else does; Why the current teachings seem to all come after the fact and not before, as a warning should.

Because we have done the chronology of the Sabbatical and Jubilee years from the creation of Adam up to the final 120th Jubilee in 2045, we are the only ones who can show you each and every blood & dark moon that came before the death of Adam and each of the patriarchs. We can show you all the blood moon warnings that came before the Flood of Noah and the destruction of Sodom and Gomorrah. We can also show you the blood moons and dark moons that came before the 7 years of plenty and 7 year of famine in Joseph's life time.

We know there was a blood moon the day Yehshua was killed and we show you about 30 blood moons and dark moons preceding the destruction of the Temple in 70 C.E. There were blood moons before the destruction of Israel in 723 B.C. and before the fall of Judah in 586 B.C.

There were blood moons before WW I & WW II.

So what do these current blood moons warn us of? They warn us of the coming war and famine that is about to come. The reason we know this is because we also understand the curses of Lev 26 and when Yehovah applies them in a Jubilee cycle.

All of this and more is explained in the video and the e-book. You can have the e-book with just the [click of your mouse](#).

If you're reading this before Shabbat then order your copy now, otherwise wait until after Sabbath and order your e-book to read the truth about the blood moons that no one else is teaching you.

When you order our e-books, DVD's and books, the money raised from them goes to help support our other efforts in proclaiming this message to others around the world. It also helps to maintain the vineyard in Israel and to create further DVD's, as well as maintaining the web site and email list. So, please do consider buying from us and sharing with others, or you can make a direct donation. It all helps us to get this warning message out there to others. Thank you.
