From LAMB Radio host Gene Porter regarding the 1 hour interview with Joseph Dumond and his new book: 2300 Days of Hell. (March 8, 2014)

I just finished one of the most intriguing interviews that I have ever conducted. Joseph Dumond was my guest on The Wall Watchmen. Spending an hour with Joe is an exercise in frustration, because that's nowhere near enough time to dig into the depths of even one item of those that he has explored in Scripture.

Do you want your appetite for knowing what is prophetically just around the corner whetted? Then listen to this hour, then go to YouTube and search out his name. THEN, start asking YHWH what YOU can do to get Ephraim to wake up before it's too late. The podcast should be up by this Thursday (3/6) at <http://www.messianiclambradio.com/wallwatchmen.html>.

It was great fun. We tried to cram as much as we could into an hour. He has SOOO much to say.

The Best End Times Book I have Ever Read

By Don C. on March 7, 2015

Out of all the books I have ever read that pertain to the scriptures and end times prophecy, 2300 days of Hell goes far beyond anything I have ever read before. Mr. Dumond goes into detail and shows what most of us have over looked when studying the scriptures about the things that are about to happen in these last days. There is no doubt that Mr. Dumond has done his homework showing clearly what the scriptures say and mean showing the things that are about to happen to America and the other countries that have turned our backs on the God of the bible and what will soon happen to all those who disobey the Law, Commandments and the To'rah.

Must read this book

Love this. Mr. Dumond has done an excellent job explaining the sabbatical and jubilee years how it ties in to prophecy in Daniel 8 and 9. Explains what we are seeing on the news and why it is happening. I recommend this book for all who wish to understand where we are and where were going and why

The "2300 Days of Hell" is a very eye opening book as it explains to us the relevancy of what is happening in the world today in light of the biblical prophecies that are unfolding all around us. Chock full of history, current events and scripture, this work is not only very interesting and informative but also astounding in its depth and startling in its conclusions. This book will show you why obedience to Torah is so important while at the same time encouraging you to deepen your walk with YHVH. It is definitely a must read!

Eye opening details that we have never been taught, but must know. Not only does Mr Dumond give important Scripture evidence but also proven secular and outside resources to prove his point.

An absolute necessary book to read if you want to see our Fathers plan unfolding before your eyes. Joseph Dumond has been given magnificent insight by our Father into what is coming on the earth. All his books are great reads if you want to understand the happenings of the near future and how we have gotten here. Critical to understand Sabbath and Sabbatical years and their timeline.

A highly recommended book and all I can say is that when you finish this book you will turn to page one , start over and learn even more!

Joe does exhaustive researching , is not afraid to tackle any subject matter or controversies. He is respectful of other points of view but challenges discrepancies via sound scripture and detailed history.

This is a book that I had to read slowly and carefully and prayerfully. Scriptures are beginning to line up , the news became clearer and most importantly my obedience to the Torah and the voice of the Spirit in my individual life has taken on a new meaning. We all need to get the message in this book out.

As a follow up to Remembering the Sabbatical Years of 2016, this book fills in any information that one might need to understand why obedience to the Torah in its entirety is crucial. Having had to start from scratch, the information has been staggering. However, we are in the end times and having an understanding of what is happening in these end times is important. Our family highly recommends this book as well as Remember the Sabbatical Years for personal study, group study and church study. The time is now!!

If you read only one book, make it THIS book

Everyone needs to read this book to start to understand prophecies from the Hebraic standpoint and NOT just what has been repeated for the past 60 years. This book will help you understand that YOU are Israel and the prophecies apply to you. Scripture is opened up when you understand the Jubilee year cycle and Daniel's timeline in that context. Mr. Dumond has uncovered the secret to this hidden timeline and it is nothing like you've been told in the past. Please read this book and all of his books. Prophecies of Abraham set the stage. The Sabbatical Years of 2016 goes into further detail and answers many more questions. Then this book just breaks down all the walls of hidden prophecy and brings it all alive AS it is happening TODAY before your very eyes. Invest in these books OR go to his site, SIGHTEDMOON.COM and order the downloadable PDF versions to read online if you prefer to not get the kindle version. I love the PDF version. It's inexpensive. You have nothing to lose, but everything to gain.

VERY Interesting!!!

By K C on March 2, 2017

I haven't finished this book, but I'm finding it very interesting with regards to the genealogy. I've been working on my own genealogy and can go back as far as 49 A.D. to Tuathal Techtmar, "The Legitimate" High King of Ireland. Some names in my line coincide with names in this book such as, King Robert, the Bruce's, Edward, Malcolm etc. I think this book will really help me continue and Mr. Dumond has done all the work! The title of the book was misleading, but I might find the relevance as I get further into the read. Be warned though, as this is a "thick" book, so not one you will read in a few hours!
