News Letter 5853-043

The 1st Year of the 4th Sabbatical Cycle

The 22nd year of the Jubilee Cycle

The 9th day of the 11th month 5853 years after the creation of Adam

The 11th Month in the First year of the Fourth Sabbatical Cycle

The 4th Sabbatical Cycle after the 119th Jubilee Cycle

The Sabbatical Cycle of Sword, Famines, and Pestilence

January 27, 2018

Shabbat Shalom To the Royal Family,

Panics and Epidemics

At the time of this writing, we have just had two Missiles. One in Hawaii and another in Japan. In both cases, people went running for cover and did not know where to go or what to do to protect themselves. All of this comes on the heels of US President Trump threatening to send fire and fury on North Korea's Supreme Leader Kim Jong Un who is threatening to send Nuclear ICBM on Guam and now all of the USA.

Across Hawaii, thousands of cell phones received a message: "BALLISTIC MISSILE THREAT INBOUND TO HAWAII. SEEK IMMEDIATE SHELTER. THIS IS NOT A DRILL."

The message, sent at approximately 8 a.m. on Saturday, January 13, immediately propelled almost all of Hawaii's 1.4 million residents into panic.

The chaos lasted for more than half an hour before another cell-phone message was sent out, retracting the warning.

EMERGENCY ALERTS

Emergency Alert

BALLISTIC MISSILE THREAT INBOUND TO HAWAII. SEEK IMMEDIATE SHELTER. THIS IS NOT A DRILL.

Slide for more

Since 2005 we have been warning across North America, the UK and her territories as well as the rest of the world about what was to come. In this past year, we have begun to speak to leaders of some countries about the curses of Leviticus 26. We have been warning you through this Newsletter, books, and videos and Podcasts of the coming horror that is prophesied to come. We have had close to 10 million hits to our various sites, but only a few actually believe this information, these prophecies. Far too many consider it just head knowledge and interesting to know, but do nothing about it.

We are warned in Ezekiel that when you see the sword coming you must shout out a warning to the others or else their blood will be on your hands. So how many of you are shouting out this warning? How many of you are dragging people back to the videos and books at sightedmoon.com?

Yehovah said He would punish the 12 Tribes of Israel if they forgot and disobeyed Him:

“... I will even appoint over you terror and ye shall flee when none pursueth you”
(Leviticus 26:16-17).

Verse 36 offers more detail:

“the sound of a shaken leaf shall chase them; and they shall flee, as fleeing from a sword; and they shall fall when none pursueth.”

You have now just witnessed thousands of people fleeing for cover in Hawaii. We have shown you before many times how the people are running for cover in Israel daily when rockets are launched at many of their cities.

Yehshua warned us of this time just before He was killed.

Mat 24:6 And you will hear of wars and rumors of wars. See that you are not alarmed, for this must take place, but the end is not yet. For nation will rise against nation, and kingdom against kingdom, and there will be famines and earthquakes in various places. All these are but the beginning of the birth pains.

North Korea is not going to do anything to the US except jump up and down and make a lot of noise to gain attention. They are not mentioned in Bible Prophecy. And yet we are also told that

Gen 49:22 “Joseph is a fruitful bough,
a fruitful bough by a spring; his
branches run over the wall. The
archers bitterly attacked him, shot at
him, and harassed him severely,

In biblical prophecy, archers are those who launch missiles, and we are being told that Joseph, the USA and the UK and her dominion, of Canada, Australia and New Zealand, are going to be bitterly attacked by archers. But who? And when?

We have also been sharing with you those curses in Lev 26 that are found in the 3rd Sabbatical cycle and would carry over into the 4th one we are now in.

The third curse of Lev 26 is epidemics and death by diseases.

Even as I go to post this the news today about the flu outbreak in Toronto and how some are dying.

I know of my own family members that died in this story in 1919.

100 Years Ago: Deadliest Flu in History Killed Tens of Millions: Could it Happen Again?

The U.S. Centers for Disease Control says the current flu season is the most severe in nine years and getting worse. 30 children have died from the virus and most states are reporting sharp increases in hospitalizations each week. Concern over the current flu outbreak has some wondering how bad it could get,-even questioning the likelihood of what occurred in 1918.

This year marks the 100th anniversary of the Spanish Flu. It was the deadliest flu pandemic in human history and the third deadliest disease outbreak ever.

Within just one year, Spanish Flu swept the entire globe, killing 50 million people, about four percent of the world's population at that time, including 675,000 Americans. By comparison, smallpox killed an estimated 300 million people in the 20th century, The Plague killed 20 million people in a four-year period during the 1300s. The AIDS virus has reportedly killed a total of 35 million people worldwide since the 1970s.

The catastrophic Spanish Flu killed its victims suddenly. People who contracted the aggressive virus often appeared fine in the morning and were dead that night. Unlike most influenza viruses which prove fatal mostly to the very old or very young, Spanish Flu morbidity centered on healthy people in their twenties and thirties.

One of the first known outbreaks of Spanish Flu occurred in Kansas in 1918. However, it wasn't

named “Spanish Flu” until later after a reported outbreak in Spain. It’s believed U.S. servicemen deployed to Europe during World War I greatly contributed to the rapid spread of the virus.

This season’s virulent flu outbreak, combined with marking the 100th anniversary of the Spanish Flu has many wondering whether another pandemic like it could occur today.

Unlike today, before and during the Spanish Flu pandemic, there were no effective vaccines. According to the U.S. Department of Health and Human Services, it wasn’t until the 1950s that vaccine manufacturers could routinely produce vaccines that would help control and prevent future pandemics.

However, even though we have flu vaccines, they are far from effective, only as much as 60% at best. This year’s vaccine is estimated to be only about 30% effective, some estimates have it as low as 10%. The actual efficacy won’t be determined until after the flu season has ended.

The catastrophic Spanish Flu killed its victims suddenly. People who contracted the aggressive virus often appeared fine in the morning and were dead that night. Unlike most influenza viruses which prove fatal mostly to the very old or very young, Spanish Flu morbidity centered on healthy people in their twenties and thirties.

This year’s strain is known as the H3N2 virus.

The CDC expects the 2017-2018 flu epidemic is shaping up to be the most deadly since 2009/2010 swine flu epidemic that killed 284,000 people worldwide and 657 Californians. What makes this year’s flu potentially so deadly is that there are three sub-type variations of the Influenza A strain and three variations of the Influenza circulating.

According to a CDC weekly report released Friday, the flu is now widespread in all states except Hawaii and the District of Columbia. At least 60,000 cases of the flu have been reported.

Cases of influenza have reached epidemic proportions, touching nearly all parts of the United States and killing at least 20 children, the Centers for Disease Control and Prevention says.

We are keeping you abreast of the times we are in and how they coincide with the curses of Lev 26.
