News Letter 5845-024

11th day of the Fifth month 5845 years after creation

The Fifth Month in the Sabbatical Year

The Second Sabbatical Year of the 119th Jubilee Cycle

August 3, 2009

Greetings Brethren,

I have just heard today on the news this article which I have now copied here for you to consider. Since August of 2005 I have been warning any and all who would listen that the next curse in the third cycle of the Jubilee cycle is going to be pestilence.

Later I learned that pestilence and famines almost always worked together in the bible. In the DVD that was made in March of 2008, I went to extensive measures to show you that during the next 7 years the common theme on the nightly news would be pestilence, just as the previous 7 years has been the weather, which is the second curse of the Jubilee cycle. We have all heard of the scare that has been caused by the swine flu this year. I once again am asking you to watch the DVD at https://sightedmoon.com/sightedmoon_2015/?page_id=251 and to watch the whole thing. I am also asking you to somehow get your loved ones to also watch it with you and to get your pastors and congregations to watch it as well.

I am not trying to gain a following or raise up my own group. I am not asking for money. I am just trying to share a warning that I have found in the scriptures of your bible. The same bible all of you have. The DVD is free to watch, and is going to take 2 hours of your time

Some of you may not believe any of the things I have said. That is fine; I too have found it hard to believe that these things are actually going to happen. But things do seem to be happening just as I have (Just as the bible say they will happen) said they would on the DVD. No I am not a prophet, nor claim to be one. I just read my bible and one day I learned something, and it is this Jubilee cycle that I am sharing with you.

Normally I send this News Letter out each Sabbath, but the remedy for these plagues is in an understanding of the anointing oils. This is a subject I know little about and I am just starting to learn. But I am going to share with you what I do know and suggest you go to these sites I am suggesting and to buy the book I am suggesting so that you too can learn and not have to wait on me learning it first. Time is fast running out and it will take you time to learn how to use these oils.

Please Brethren, do not discard this message. Consider what is being said here. Here is the article as I heard it on the radio today. This is followed by my article on oils which is just a patch work of thoughts right now and is not really an article at all.

May Yahweh be with you.

Shalom,

Joseph F Dumond

China seals town after plague deaths

Virulent, rare disease

By Rik Myslewski in San Francisco

Posted in Biology, 3rd August 2009 17:31 GMT

Chinese health officials have sealed off a town in a sparsely populated area of north-central China to halt the spread of an aggressively deadly strain of plague.

As of Sunday, two men have died from the outbreak, and another 10 – most of them relatives of the first dead man – are under quarantine.

The disease is pneumonic plague, which the World Health Organization refers to as “the most virulent and least common form of plague.” Pneumonic plague is a variant of the bubonic plague – the Black Death – that killed an estimated 75 to 100 million people worldwide in the mid-1300s.

Bubonic plague is spread by flea bites, but pneumonic plague needs no third-party vector. It is spread simply by inhaling the *Yersinia pestis* bacteria after it has been made airborne by an infected person’s cough.

Untreated, pneumonic plague can kill in a day, with a mortality rate that “approaches 100 per cent,” according to an article published by two American clinicians. Early and aggressive treatment with antibiotics can, however, reduce that death rate significantly.

None of the 10 under strict quarantine have shown signs of the disease, according to China’s official Xinhua News Agency, which reported the first death on Saturday. They are, however, being kept under watch due to their association with the dead.

The two deaths from the current outbreak have occurred in the town of Ziketan in Qinghai province. Ziketan is huge: 3,000 square kilometers, according to Xinhua – over 1,150 square miles. Ziketan is in the Hainan Tibetan Autonomous Prefecture, and it has a population that’s over 60 per cent ethnic Tibetan and just under 30 per cent Han Chinese.

Xinhua reported that a press release from Health Bureau of Qinghai Province claimed that they had sent a “team of experts to the area [that] had the plague under control” and that “the area has sufficient supplies and the quarantine has not disrupted the basic needs of the locals.” The Associated Press spoke by phone with a food seller in Ziketan who said, “People are so scared. There are few people on the streets. There are police guarding the quarantine center at the township hospital but not on the streets.”

The man, named Han, said that authorities had instructed people to disinfect their homes and shops and wear masks if they needed to go out.

Han also said that some 80 per cent of shops in the town had been closed – and that the “prices of disinfectants and some vegetables have tripled.”

Chinese Town Sealed Off After Plague Outbreak

6:53am UK, Monday August 03, 2009

Peter Sharp, China correspondent

A town of 10,000 people in north west China has been sealed off from the outside world after an outbreak of deadly pneumonic plague.

The town of Ziketan in Qinghai Province has been quarantined after a dozen people were infected with the highly contagious lung disease.

The outbreak has already claimed two lives. A herdsman died from the disease on Friday and his neighbour died on Sunday.

Another 10 people, mostly relatives of the dead men, were undergoing treatment in an isolation hospital. A team of medical experts are being flown into the remote town.

Health authorities are warning that anyone suffering from a cough or fever who has visited the town since the middle of last month should seek urgent medical attention. There are fears the disease may have spread before the town was sealed off.

Pneumonic plague is easily transmitted through the air and can be passed from person to person by coughing. It is the same bacteria that occurs in bubonic plague.

The Black Death killed more than 25 million people throughout western Europe in the Middle Ages.

While bubonic plague “which is usually transmitted by flea bite” can be treated with antibiotics if diagnosed early, pneumonic plague is one of the deadliest infectious diseases. According to the WHO, humans can die within 24 hours of infection.

[0802_man_dies_from_plague_in_china_11_others_infected_.html#ixzz0NAXyeakz](http://www.nydailynews.com/news/us_world/2009/08/02/2009-0802_man_dies_from_plague_in_china_11_others_infected_.html#ixzz0NAXyeakz)

According to the World Health Organization, pneumonic plague is one of the deadliest infectious diseases and can kill within 24 hours of infection.

The Healing Oils of the Bible

Just prior to and then during the period of the 9th of Av I had the following emails go back and forth as a result of an interesting conversation with a brother from Germany who had originally called me a couple of weeks before all of this.

I had met Holger when he contacted me by phone about the News Letter last year. He sent me some information and it was later lost when my computer crashed. Holger translates the bible into Mongolian and Mandarin if my memory is correct. He is very knowledgeable of the scriptures in more than one language.

One of the many areas of unknown that I have is in the area of the Anointing oils that we read about in the scriptures. I have little to no understanding in this area.

In order to change this lack of knowledge one has to begin to research and to study on it. This is now what we are going to do. It is important that we do so as the Swine flu will soon take the front page news all over the Northern Hemisphere.

The following is the development of this understanding. How I go about learning a subject. I share this with you so that you may do likewise in learning about those things you do not understand.

Dear Joseph,

I sent two essential oils and two lip balm sticks in an envelope to your address. It will probably arrive within 7-10 days, that is the normal air mail time to the US. Perhaps Canada is quicker.

And I never understood why the mail takes so long between Germany and north America.

When in Asia, the regular speed of letters from Germany to Hong Kong was 2-3 days.

I like to explain a bit to you about the sent oils. Please read my letter in the attached PDF.

Thank you & welcome!

Thank you for the links to the Abraham prophecies. I read them and will continue.

Shalom,

Holger

Dear Joseph, July 23, 2009

It was encouraging. I really enjoyed our communication over the phone. Today, I have sent two essential oils and two lip balm sticks in an envelope to your address. It will probably arrive within 7-10 days, that is the normal air mail time to the US. Perhaps Canada is quicker.

I have never understood why the mail takes so long between Germany and North America.

When in Asia, the regular speed of letters from Germany to Hong Kong is 2-3 days.

I like to explain a bit to you about the sent oils.

Scripture tells us about how to Prevent and

Cure a Plague

The one perfume labeled King James is the effective blend of oils that are extremely powerful against viruses, bacteria and also antimicrobial.

It was used in the middle ages successfully against the bubonic plague by perfumers and tanners.

The ingredients are Rosemary, Clove, lemon, Cinnamon bark and Eucalyptus root. As with all essential oils, it is extremely important to know the source of the plants, its distillation method and also the dealer. This is the difficult part and takes time to find out. There are many fake oils these days that have been produced synthetically and thus have no medical value at all. They may have some nice odor yet they are not what they appear to be. Pure oil produced in a traditional manner, marketed directly from the distiller or through a trustworthy dealer is not absolutely rare but one has to be familiar with the markets. A short historical and Biblical review is necessary to appreciate the blessings of these oils.

True healing comes from Yahweh. Our Elohim is also the creator of these plant ingredients. In the ancient time of the exodus of the Hebrew people from Egypt, Yahweh revealed to Moshe the secrets of the oils, their composition for use in His service and general applications.

Essential oils had been known before that by the Israelites, just read the story of Joseph “ there are many passages in the Torah, dealing with the oils. Yet, from the time of Moshe, the applications of these distilled plant oils became distinct for Israel and their usage by the Levites.

Their neighbors like the Egyptians and the people of the whole Middle East used essential oils that came from the Himalaya, India, Europe, Africa, and certainly from the Middle East. Just recently a distillation place has been found in Pakistan that is about 5000 years old.

Yeshua himself was being anointed by these oils as is frequently mentioned in the gospels.

There are hundreds of references to the essential oils in the Bible: From Genesis to Revelation. Everybody understood these mentions as the oils were part of daily life in the Middle East at that time. The Jerusalem temple was daily scented, some sacrifices were anointed, and all the set apart items of the temple had been anointed with essential oils. The kings, the priests, the prophets had their anointing with essential oils. The Levites had to organize the oils, get the best quality available, make the holy anointing oil, apply oils and many more responsibilities in this context. Almost all healing and cleansing was regulated by Torah “ and we find several oils here. The kings of Israel knew the value of these oils and had their people care for the plants from which they were derived.

Yeshua commanded his disciples to heal with these oils; they certainly did not use salad oil for healing. Read Song of Songs, how the oils were applied with royal people in loving relationship.

See the extremely valuable oils that were used to anoint Yeshua. You find many more details in the book *Healing Oils of the Bible*, available in English and German editions by Dr. David Stewart and me.

Common people had common knowledge about the oils in Israel and the Middle East, the Romans knew them like most of the people around the Mediterranean and further east.

Then, the dark ages came and ignorance fell over Europe and the Middle East, the Romans lavishly over used the oils and then the empire crumbled and the oils became forgotten. Only by the late 1800's, there was a revival and new exploration of the essential plant oils in France, Germany and England and their medical value newly discovered and more broadly applied.

Most of the oils are not used in aromatherapy, over 90% go are used by the industries: Perfume, meat, bakeries products, tobacco, and others. Only a fraction of purity and quality go into healing. The pharmaceutical industry does not like it and puts up restrictions and regulations as they cannot patent these oils. The big difference is that each year, the plants from which the oils are being distilled have a slightly different composition of constituents. That is due to sunshine hours, rainfall, temperatures and other conditions. This is a great advantage our Creator knew when making the plants. The pharmaceutical drugs have always the same components and that is the pride the chemists have. Yet, the advantage of the oils is that the bacteria and other carries of infections and diseases cannot develop resistance to yearly changing essential oils active ingredients that happens by nature. Chemical drugs often render inefficient after some years as the bacteria have developed resistance.

How do these oils work? Essential oils have a very small molecular structure and can therefore penetrate the human body over the skin. They just go into your body by permeation of the skin, then into the bloodstream and from here to all cells of the body.

One can divide the major three groups of essential oils components of all the oils into these chemical entities: 1) phenylpropanoides, 2) monoterpenes, and 3) sesquiterpenes. These three groups do the following in the body.

Group 1, compounds of carbon ring molecules clean the receptor sites of the cells. Without clean receptors, the cell cannot communicate and the body malfunctions; sickness is the result. Found in Clove, Cassia, Basil and Cinnamon, as well as in other essential oils.

Group 2 with a tiny molecular weight of 136 amu (atomic mass unit) offer a variety of healing properties. They can reprogram corrupted information in the DNA of the cell memory. There are 2000 varieties of monoterpenes. The oils with the highest count of monoterpenes are Galbanum (80%), Angelica (73%), and Hyssop (70%). Almost all oils have some monoterpenes.

Group 3 the sesquiterpenes are compounds of three isoprene units. They deliver oxygen to the cells. They also correct misinformation in the cell memory. The highest count is found in Cedarwood (98%). Guess why Salomon's palace was built by cedarwood? More information is in the book.

With this little introduction, there is a little more light in what the oils do to the body if applied right. Yet, there are oils distilled from about 400 species of plants, from their stem, wood, blossoms, leaves, roots, etc. About 70 are being used frequently in aroma therapy.

Again, each of the oils consists of up to 100 or more constituents. So, it requires patience, prayer, study and practice to become a specialist in this field. The Bible reveals many secrets on healing when read informed on the oils. Proverbs 21:20 says: There is treasure to be desired and oil in the dwelling of the wise.

In our days we are in need for the oils for our wellbeing and against the plague. What does scripture say about the plague in relation to essential oils?

Remember when Aaron the priest was commanded to take the oils, make them vaporize by adding fire in his censer and immediately rush to the people to stop the plague. The oils of the holy incense were essential oils as commanded in Torah. Read the story in Numbers chapter 16.

We are in no different situation today. Aaron stopped the plague with burning frankincense, galbanum, onycha, and myrrh among the people after 14700 fell dead from the plague.

Why did the 1917-1919 pandemic of the Spanish Influenza do? It killed millions of unprepared people all over the world. Official reports state the number of its victims 20-70 million people worldwide. Interesting is that the number of people who had received vaccination against that flu was seven times higher than those not vaccinated. Eleanor McBean did publish details on this topic. Ignorance of natural godly treatments and lacking preparation to boost the human immune system contributed to that high death count. Today, all major pharmaceutical enterprises invest millions in research and production of vaccines against the swine flu. Executives of these companies are talking about a new gold rush when addressing the swine flu. And governments campaign through the media to force citizens to accept vaccinations. The love of money is the root of all evil.

What did Yeshua say to his disciples? He sent out his disciples by two and two. In Luke 6:12-13 we can read what they did: And they went out, and preached that men should repent.

And they cast out many devils, and anointed with oil many that were sick, and healed them. They did what they were told and enabled to do. Preaching to their fellow countrymen, casting out demons and anointing the sick with oil and healed them. They were acting in obedience.

What can we do? Are we priests of the Most High in Yeshua? If so, we should consider to take measures to prevent ourselves, our families and our neighbors from that current plague that picks up momentum. How? With prayer and the natural substances Abba created for us: The same Essential oils that Aaron used to minister to the Israelites, the same that the Talmidim (disciples) used to anoint and heal the sick. Are we priests? Look up these scriptures: Luke 17:21; II Cor 6:16; 1 Peter 2:5, to see for yourself.

How can we do this? Some people may argue they have no clue how to do it and where to get genuine oils. Healing requires faith and prayer. True healing comes from Elohim. His message to us, the scriptures, tell us, how to do it.

Genuine oils are produced and offered. There is a two pronged method to combat disease: Prevention before infection with oils that boost the immune system (I have seen that for years when all the other children caught the flu or other contagious diseases, those whose parents gave them a little anointing once or twice a week did not get infected); And directly combating infected people with the relevant oils. And another testimony: Prayer alone can heal, as well as the oils alone are effective, yet a prayerful application of essential oils is most powerful. And this is the way our Creator intended it.

Now, dear Joseph, you may have a little insight what the two oils I sent to you will be able to do with your prayer for yourself, your wife and your neighbors. The one labeled King James I, what the thieves used that robbed the dead of the great plague. Here is the little story: Its title is promising, also in our days.

Immune to the Black Plague

This formula which is commercially available is the essential oil blend called King James. It contains cinnamon bark, which is one of the most active ingredients in the set apart anointing oil of Exodus 30.

The name of this blend comes from the Dark Ages of Europe, when there were great plagues that killed millions. These horrific epidemics were so contagious that no one was willing to remove the bodies for fear of contracting the illness themselves. People would fall dead in the streets, parks, in public houses and elsewhere. Nobody touched them and were left unburied. But there were groups of thieves who stripped these bodies of their jewelry and money and broke into the homes of the deceased to rob them. These criminals did not get sick. One day the king arrested some of them and demanded their secret upon pain of death.

The robbers decided to give in and the king learned that these criminals were all perfumers, tanners and spice traders who knew the protective properties of essential oils. The oils they used to be unharmed by the contagious were cinnamon, rosemary, clove, eucalyptus, and lemon. They rubbed them on the skin of their body and covered their faces with masks as a protection for breathing.

The king who arrested them and discovered their secret was King James, the one who commissioned the translation of the Bible into English that was first published in 1611.

These oils have not lost their power since then. They have long been forgotten and recently came under attack by the pharmaceutical companies who see them as undesired competition.

Yet, the use of these healing substances of nature that are being distilled from plant materials, have unparalleled properties for human beings. With few drops, prayerfully applied on the sole of the feet and the back, flu and many other maladies can be healed.

That takes the threat of pandemics away. A good way to prepare for the flu season that usually tends to become more contagious, is to apply a few drops a week, strengthens the immune system and resists microbial, viral and bacterial influences. The second oil I send to you does exactly that: it builds a strong immune protection by cleansing and purifying on cellular level.

Just put a few drops in your hand and apply them to the sole of your feet twice a week. There are approximately 200 drops in a 10 ml bottle (or vial). So you can calculate how long it will last.

We have used this wonderful gift of Abba's creation for about 5 years, learn from the Bible and praise our Elohim in Yeshua for man healings we witnessed with minor and major diseases healed with our clients.

With a group of messianic brothers from Germany, Austria and Switzerland we pool oils from good sources, apply the oils and offer them also for sale at moderate prices individually and also wholesale.

We also offer training courses for various applications with the oils and hold these courses in congregations. We are currently translating some of our materials into English.

Both, the provision of oils and the teaching of how to apply them properly for body, soul and mind are our service to equip the saints of Yahweh. I personally see it as a tiny fraction of what apostle Peter prophesied in Acts 3:21 Whom the heaven must receive until the times of restitution of all things, which God hath spoken by the mouth of all his holy prophets since the world began.

I will send the article to you in time.

Shalom,

Holger Grimme

Ailastrasse 28

96346 Wallenfels

Bavaria, Germany

until the times of restitution of all things, which God hath spoken by the mouth of all his holy prophets since the world began. Acts 3:

Numbers 16:48 says: And he stood between the dead and the living; and the plague was stayed.

Proverbs 21:20 says: There is treasure to be desired and oil in the dwelling of the wise;

And they cast out many devils, and anointed with oil many that were sick, and healed them.

Mark 6:13

Thank you Holger, the oils have arrived and it looks like customs never opened them.

I look forward to the article. I do plan on publishing some articles on the oils after the Feast. If you could have yours to me by then that would be great.

Also you need to let me know if you want me to publish your address so people can order the oils from you. Or perhaps a link from my site to a short article on these oils and then another where they purchase them from.

Let me know if this is of interest to you.

Shalom Joseph F Dumond

www.sightedmoon.com

Dear Joseph, good to hear that the oils have arrived. I will send the article once it is finished.

The publishing of the address is great. I will send you links and a brief article for this. As the swine flu is taking on momentum and specially the risk of contagion during and after summer vacations this time of the year, an early information would be suitable.

Here in Bavaria the school holidays start coming week. The people who go on vacation will meet with many others during travel and will most likely have much higher risk to catch the flu than others who do not travel.

We had in our region no serious case, but one school closed some weeks ago due to the flu outbreak.

Australia and the US seem to have most reported cases. From other reports of earlier viral flues one can expect that early fall will have many more cases. In France and Britain, the schools prepare for closures. Yesterday I learned that PM Netanyahu has decided to vaccinate all Israeli citizens and they ordered a lot of vaccines for that purpose.

To my view, vaccination is very questionable, as from former vaccinations against a flu, people with a vaccination had higher infection rates than those with none. From the Spanish flu of 1918, researchers found that the rate between vaccinated victims and people without vaccination was 7:1. That should ring alarm bells: 7:1 means that only one of eight people who suffered from that flu had not been vaccinated, while 7 out of eight had been vaccinated.

I will contact you again. And I hope and pray that the essential oils will help you and your family to boost your immune systems to prevent contagion. Just use 3-4 drops of the Immunity, one week on the sole of your feet 2-3 times weekly. The other week use the King James blend and rub some of these on the soles of your feet. Pour the drops onto your hand and rub them evenly onto the sole of your feet. Be careful with the oils and never get them into the region of your eyes. Even after a while of applying them, do not touch the eye region with the hand you applied the oils. If that should happen and you have a burning feeling in the eye region, wash your hands with soap, rinse and dry your hands. Then apply some olive or cooking oil on the

irritated region. That will slow the absorption of the oils into the skin and the burning will ease.

All the best.

Kind regards,

Holger

Shabbat Shalom Holger,

I have just a few minutes ago anointed my right big toe, and my right ear and my right thumb with the immune oil. I use my left index finger to place on each my other parts.

Within minutes I could feel tingling in my index finger as it had oil placed on it three times. I can also feel tingling in my right foot and my right hand. I do not feel any tingling in my right ear. This may be because I am such a hard head.

So am I nuts or does this happen all the time? Is this what is supposed to happen? I can actually feel it going up my leg and up my arm. But not my head.

WOW!!! This is so different. I am also into my second day of fasting. I wonder if this has anything to do with it.

Thanks Again and Shabbat Shalom

Joseph F Dumond

www.sightedmoon.com Shabbat

Shalom Joseph,

you sensed how scriptures come alive once applied. Isn't it interesting and amazing what Abba has given to His children?

I have written a letter to you. please find it attached as pdf.

Welcome!

Shabbat Shalom Joseph:

Good to hear what happened when you applied the oil blends. What you experienced shows that you are sensitive to the oils. I recommend that you study Leviticus 14 concerning your reaction. Essential oils of cedarwood, onycha (scarlet " this is a bit uncertain and requires further study and revelation, yet does not apply in this context) and hyssop are commanded for physical and spiritual cleansing to be applied by the priests of Israel. By the sacrifice of Yeshua haMashiyach, the blood of animals that covered sin, impurity and disease are not required, rather the repentance, covered in the blood of Mashiyach before applying the oils.

Read verses 17 and 18:

Leviticus 14

17 And of the rest of the oil that is in his hand shall the priest put upon the tip of the right ear of him that is to be cleansed, and upon the thumb of his right hand, and upon the great toe of his right foot, upon the blood of the guilt offering.

18 And the rest of the oil that is in the priest's hand he shall put upon the head of him that is to be cleansed; and the priest shall make atonement for him before Yahweh.

About a year ago I explored this with study and prayer in connection with Ex 12:22, Ps 51:7, John 19:29 and other relating scriptures. Rotherham translates the Psalm verse like this: Wilt thou cleanse me from sin with hyssop, That I may be pure? Wilt thou wash me, That I may be whiter, than snow? What does that mean? Most people would have no clue at all, how hyssop is connected with cleansing from sin. The

German word Luther used here for cleansing from sin cannot be translated: entsündige mich, he says.

This is very strong like, "redeem me" like take all sin completely away from me with hyssopus. I wondered and pondered in prayer and looked up all the biblical verses that names hyssopus. There is much more to say to this, yet, for this explanation here: I applied it prayerfully and in fear of Elohim with a friend who had a sinful addiction and could not become loose from that habit by prayer alone. I explained to him the situation, he agreed, we prayed and applied the oil " then he was set free upon praying and anointing the parts named in Leviticus. All glory to Abba! What happens in our days is part the fulfillment of Kepha's (Peter) prophecy in Acts 3:21.

The tingling you sense is to my understanding caused by the frequency of the oils that are applied on those points as specified by the Torah. Reflexology teaches that the right toe as well as the right thumb correspond directly to cerebrum, pineal gland, pituitary gland, cerebellum and the temples.

So, there is some response from about all the parts of your brain to the oils. One of the components is frankincense, and that, if it is real *Boswellia carterii* , applied according to Torah in prayer, is not only causing bodily responses, but also spiritual ones. The tingling you sensed is a frequency response on cellular level " too complex to explain here. This is normal " anoint your wife if she agrees, you will be able to sense her tingling or bodily frequency when patiently waiting for it by touching the soles of her feet or her shoulders prayerfully and with an oils blend on your hands. But this would go too far at this point and will require more explanations & study & experience with Abba's anointing in Mashiyach.

Your fasting will probably have enhanced your sensitivity. I recommend you go ahead and study more on the subject. It is a whole world of beautiful things Abba made for us in His creation that have been forgotten and now come back to those who follow Yeshua: Absolutely fascinating and unforgettable blessing for yourself and those who you will anoint.

Never forget: YHWH created them for his children, not the accuser who distorts everything or makes it look bad. So, don't be intimidated by all the sorcerers, etc. May all our efforts result into the glory of Yah.

Brethren, a couple of years ago I heard Rebecca Totilo speak at an MIA conference in Pennsylvania. She taught me something I had never considered. I have had the things she

said on my mind ever since, but I have not had time to study them enough to speak of them with any intelligence. I bought her pure oils and have had them on the shelf next to my desk since then. I can smell them but I have never used them as I did not know how.

Then recently I had the preceding conversation with Holger.

When you go to Rebecca's site at <http://www.rebeccaatthewell.org> you can listen to her talk about the healing oils of Ancient scripture by scrolling down to the blog talk presentation. Note there are two presentations there. You will have to turn off the video presentation before you begin to listen to the blog talk presentation.

She also has a power point presentation at <http://www.scribd.com/doc/17383605/QetoretHoly-IncenseThe-Fragrance-of-Prayer> and another one at http://www.scribd.com/full/9701893?access_key=key-1iwyqa8th4lirlwly0sj

She also has a video presentation at <http://aromatherapy.homestead.com/> and at this site that she has a description of what each oil can be used for and the healing properties they contain.

I am very impressed with Rebecca's site improvements. I highly recommend you go there to learn more on this vital subject to our wellbeing. She can teach you much better than anything I am going to say.

You can also purchase the oils you want from her site.

She also has an article on using the oils to combat swine flu which is why I have included this study at this time just before the flu season comes. It can be read at <http://aromatherapy.homestead.com/combat-swine-flu-essential-oils.html>

I have also begun to read the book Healing Oils of the Bible which can be purchased on line at http://www.christianbook.com/Christian/Books/product?item_no=426988&kw=426988&event=PPCSRC&p=1010575&cm_mmc=Idearc-_-osmx-_-Books-_-426988

I have not yet finished reading this book but what I have read I found very informative.

I do not have any other information at this time.

Shalom,
Joseph F Dumond
