Shabbat Shalom to The Royal Family of Yehovah,

Back On The Air

Shalom and thank you all for once again reading our news this week and sharing these News Letters with your group and social media sites. I also want to thank those who take these News letters and translate them so that still more can learn these truths.

This week we launched our new podcast web sites.

In the past because of my fear of technology, I have relied on others in radio to host me and hope that my message can get out through them. But time and time again they would turn and shut down our shows and then remove our recorded messages, setting this work back each time.

Through the efforts of James Relf our web site Engineer, we are now able to host our own podcast or radio shows.

And in a while we will even have them on Roku and TV.

Here are the links to each of the podcasts hosts that we are now on.

[Blubrry](#) is our main host. If you go to iTunes,

then you just search for Sightedmoon and you will then have all our podcasts to date. You can also find us on [Tunein Radio](#) and [Stitcher Radio](#). And we might soon also be on Patreon where people can sponsor the shows each month.

When you go to these sites please rate the podcast and let the host station know how much you like our shows. If enough of you do this, they will want to promote our show to the hundreds of thousands of others that listen to their other shows. You can help us in this by rating us 5 star and sharing the podcast with others. I thank you in advance.

We already know that some of you support this work on a monthly basis and we do thank you for that. We must ask for more of you to consider sponsoring us on a monthly basis. There are things happening in Africa and the Philippines. And we are knocking on many doors in Asia and Europe seeking to find those who Yehovah has called. We have no prospects in Central or South America that I am aware of. But we are striving to get the message of the Sabbatical and Jubilee years and the prophecies they reveal out to the entire world.

When I look back and see how much we have been able to do with the little we have had to work with, I can only say that Yehovah has been in charge. He is the one opening doors and we must be ready to go through those doors when they open. It does amaze me.

We encourage you to share these shows. I know they will get better. James is also going to start teaching on these podcasts, as are some in Africa and the Philippines. We have hopes that still others will join us in sharing this end time message.

We now have the web site. We have our core information in books and DVDs, and now again we are back on the air.

It is such a special moment, too. There is so much going on in the world right now that my head spins. We hope to be able to keep you up to date by these podcasts because the News letters just are not able to explain everything. Many of you complain they are too long already.

With the Podcast you can listen to us explain world events in relation to the revelations from the Sabbatical and Jubilee cycles, when you drive to work or walk the dog.

I may try to do this week's teaching in a podcast but not sure how well it will go due to the amount of numbers involved. We will see.

Again I do thank you for your support and helping us to get the word out.
