1177 C.E. Rabbi Maimonides (Rambam) records in the Mishneh Torah: Hilchot Shemitah Ve-Yovel 10:5-6 “The year of the Shemitah is known and famous among the Geonim and the people of the Land of Israel. They all counted only the years of the destruction in multiples of seven. According to this calculation, this year which is 1107 Year of Destruction is the year following a Shemitah.” $1107 + 70 = 1177$

1693 A.C. Shelah born to Arpachshad age 35								1556 A.C. Japheth and Ham born to Noah age 500								
1658 A.C. Arpachshad born to Shem age 100, two years after The Flood								A lunar eclipse was seen on March 21st, 2181 B.C. This would have been when the 1st Passover took place. Noah took part in the 2nd Passover due to the death of Methuselah.								
1656 A.C. Methuselah dies around Passover age 969. Noah must cleanse for 7 days and cannot take the first Passover. In the Second Month on the 17th day the earth was flooded. The second Passover was on the 15th, and possibly the wave offering on the 16th day of the second month.								There were other lunar eclipses on April 1st and September 24th, 2182 B.C.; April 12th and October 5th, 2183 B.C.; April 22nd and October 16th, 2184 B.C. It is recorded as a lunar tetrad April and September 2182 B.C., as well as April and October 2183 B.C. These are the four Holy Days leading up to the flood at Passover in 2181 B.C., but keep in mind that even during the 1st Passover that year, there was a total lunar eclipse giving us the four blood moons at that time.								
1651 Lamech dies age 777																
1558 A.C. Shem born to Noah age 502
