The Year of letting the land rest

---

The Sabbatical year that begins at Aviv 2016 to Aviv 2017

---

June 4, 2016

---

Shalom to The Royal Family of Yehovah,

More Proof we are on Yehovah's Schedule this year

Last week we wrote you to let you know about the wheat harvest already taking place in Israel on May 10 and May 22, 2016. We have re-posted it here again for your referral.

A dear sister then sent me [this article](#) from May 3, 2016 in Israel. It shows orthodox Jews in Israel harvesting wheat in order to make matzo bread. You are allowed to use one of 5 grains to do this. I was surprised to learn this as I had believed all Matzo bread was from barley. I seem to have been wrong about that.

The Feast of Shavuot is also known as the Feast of First Fruits and we kept this Feast on May 15, 2016 having kept the wave sheaf day on March 27, 2016.

For The first wave offering you are to give Yehovah the First of your Barley Fruit offerings. Not the last, but the very first.

Lev 23:10 Speak to the sons of Israel and say to them, When you have come into the land which I give to you, and shall reap the harvest of it, then you shall bring a sheaf of the firstfruits of your harvest to the priest. 11 And he shall wave the sheaf before Jehovah to be received for you. On the next day after the sabbath the priest shall wave it.

Then for Shavuot you are commanded to offer another first fruit offering. First Fruits not the last or the seconds but the very first fruits.

Lev 23:16 To the next day after the seventh sabbath you shall number fifty days. And you shall offer a new food offering to Jehovah. 17 You shall bring out of your homes two wave loaves of two-tenth parts. They shall be of fine flour. They shall be baked with leaven, firstfruits to Jehovah.

And we are told in verse 14 to not eat anything until we have made that wave offering of first fruits.

Lev 23:14 And you shall eat neither bread (lechim), nor parched grain (gahli), nor green ears (Charmel), until the same day, until you have brought an offering to your God. *It shall be a statute forever throughout your generations in all your dwellings.*

“Lechem” in this case does not mean “leavened bread” in the opposite sense that “matzah” means “unleavened bread”. Here, lechem, means “grain for making bread”. Then, qahli (roasted grain) is grain that has been prepared for making into flour, and finally, charmel (fresh grain or “new growth”), refers to grain from a new crop. Thus, Leviticus 23:14, in context, is referring to bread made from new grain from the fresh (this current season’s) crop is not to be used for food until the sheaf of first fruits has been waved before Yehovah.

For those keeping Passover in April, Shavuot is then on June 12, 2016 and yet here we see in Israel the wheat being harvested and prepared for Matzo bread way back on May 3rd. This current season’s crop is being used for food and prepared for food over one month before what many are saying is Shavuot on June 12.

You are commanded to bring the First Fruits, not the leftovers and not the seconds but the first fruits are to go to Yehovah. Again I am being vindicated by Yehovah after all the hate mail and mean spirited things people have written because we stepped out and declared the New Year in March. This Shemitah Year began March 10, 2016 among great controversy. Yehovah is now clearly showing us when He has set the times. Will we now listen?

The Blood Moons in 2014 and 2015 fell on the Feast days of Passover and Sukkot and they warned us of coming war. This year in 2016 the Dark moons warning of famine fell on Passover and will again come on Sukkot. And now we have famine creating anarchy in Venezuela.

We never chose March 10 to begin the year just so our teaching on the Blood Moons would be correct. Now the very crops in Israel are confirming Yehovah's timing and by that we know the Dark moons this year are very important. Especially since the news now is about the people in Venezuela eating dogs and stray animals to survive.

As all of you know, this year of 2016 began in great controversy over the barley being aviv. Yet on March 27, the wave sheaf day, we had Nehemiah Gordon in his video ([go to this link and look under March 27, 2016](#)) confirm that the Barley was indeed aviv and already reseeding itself. It was based on this report that I was confident that the month of March was when Passover should be kept. Nehemiah and I disagree when the barley must be ready. He says by the end of the 12th month and I say by the wave sheaf day. This year that was March 27.

So then, if indeed the Barley was aviv March 27, 2016 and Shavuot then is May 15, 2016, the question people have been asking me is, will the wheat be ready for Shavuot on May 15?

You all have to decide for yourselves. So here are two videos of the wheat fields in Israel. The [first one is in Spanish and is videoed on May 10, 2016](#), near Cana of Galilee on RT 77. The [second video was taken on May 22, 2016](#) near Bet Shemesh. It appears to me that the wheat fields are ready and are being harvested.

Brethren, the barley was controversial this year. We advised you to keep two Passovers just in case, until we saw the results of Wave Sheaf day March 27. Now we have the wheat being harvested at the time we believed Shavuot would be on May 15. I believe Yehovah is showing us when the year began by the crops in Israel. I am listening as best I can to Yehovah. Are You?

## **Special Announcement**

Shalom Brethren, a couple months ago I wrote you and advised you about the departure of James Relf our tech person who keeps this web site working for all of us. I also asked for those of you who could to step forward if you wanted to help. Some of you did and others began to donate. I want to thank you all for doing so. I get overwhelmed at times with the many things I am trying to do.

We now have Rob Navarro from the Philippines helping me do the editing of the videos that have not been done since we shot them last fall. The first one to be completed is now ready and you [can view it here](#).

We also have some others offering to help. And I am trying to put them to work doing those things that need to be done that get no glory or credit but I thank those ladies as well. And if you wrote to help and I have not given you a job, then please write again.

Two weeks ago I went down to Ohio for a meeting with a couple of men. Jim Fincham has written an article for us in the past and has been willing to step up and correct me in love at

times when I needed it. It took some getting used to but I see his heart and his desire to share this message to the world. He already does this daily at work and wherever he can. We have asked Jim to come on board and be our CEO and help us going forward in keeping us focused on our goals and targets. He has agreed to do so and we asked him to write you a letter to introduce himself to you.

We are also working with a couple of men in the Philippines but have not yet got things worked out with them. And we have some doing French translations for us but they are not all working together. We also have some people in other countries and other languages we are approaching to help do this work.

Also at the meeting in Ohio was James Relf who was my web site Technician. He has agreed to come back and continue to work with us in the things we are trying to do. Much to my relief. We did get a few people who wanted to help in this area, and hope to be able to use one of them in about 6 months' time. James has also written a letter below for you all to read.

We are going to send James to Burundi, Africa this fall. It is going to cost us about \$10,000 when all is said and done. I once again ask you to help us get this part of our mission done. I thank those of you have helped in the past and I want you to know where we are putting your money to work. But as usual we do not have enough and it still must be paid. For this reason I work my full time job to help cover the shortfalls. And we will be very short on this mission, but we are going to get it done. Please do consider helping us in this.

We also decided at this meeting on another course of action and have been working towards this for a few months. Jim and James also felt it needs to get done and I continue to work on it. We can still use more help.

We need contacts in South Korea, Japan, Malaysia, China, Russia, Europe, and South America. We need people dedicated to teaching and sharing the truth. People who are not interested in their own self-promotion and willing to take instruction. We need ministries who want to work with us to step up. We need the help of everyone to get the work in front of us done. One person wrote to us about marketing and I have not been able to find your email. Please write us again. We need people to work with us and for us without us being on their backs to get things done. We need help working the social media side of this work. We have had setbacks as many of you know. We will have more in the future. But the time clock of Yehovah stops for no man and each day we get closer to the horror that is about to sweep the whole world. We need your help to warn as many of that world as we can.

I could tell you about how the efforts of one woman brought about great things. But I would have to tell you about 4 or 5 stories in this regard. Do not underestimate what you can do when Yehovah is with you.

Please if you want to help and if you have a specialty that we could use then contact us. I am just not able to do it alone anymore.

*Greetings to those searching to become the Sons of Elohim. My name is Jim Fincham. Joseph has asked me to assist him in his efforts at Sighted Moon as CEO. I am a Certified Professional Soil Scientist. I have a Consulting business and thoroughly enjoy this earth the Creator has blessed us all with as a platform to come to Him Through His instructions.*

*I grew up on a dairy farm in Iowa, plowing, planting and harvesting every year. Interestingly, we tried to leave one field fallow each year. Most farmers would either leave a field fallow (not growing crops) or they would plant a cover crop and plow it under the next year. A practice that is very similar to the instructions for the Sabbatical Schmitah year. I began studying Torah in about 1986 and learned about the Jubilee cycles. I tried to keep my first Schmitah in 2006, but I had no idea of what I was doing, I did the best I could. I learned a lot that year and kept studying. In 2010 I ran into Joseph Dumond and Sighted Moon. (Neither one of us was seriously injured although Joseph has accused me of beating him up on occasion since). I bought the Prophecies of Abraham then the 2016 book and then the 2300 Days of Hell. Joseph has become a dear friend, whom I find is willing to take criticism along with compliments. Joseph's approach is one of great enthusiasm for what YHVH has lead him to understand. Many find him so enthusiastic that he comes across as abrasive and thus are put off and discontinue any contact with Sighted Moon. I admit that end time prophecies can be downright scary and with all the teachers teaching the same scriptures, each with their own slant, it can be confusing. May I suggest that Joseph's approach of using not only scripture, but historical facts from any and all references, has produced a perspective that few have matched. I support Joseph in his teachings. Perhaps I am a little more reserved as to just when specific events are going to happen, but consider this. There is more than one event on the horizon for which we know neither the day nor the hour.*

*The day and hour of the end of our personal walk in qualifying to be "The Bride", the moment when our last breath leaves our body, that point at which our interaction with events on this earth come to an end and we can no longer affect our repentance, the point where study of Torah, changing who we are before our Creator has come to an end, is every bit a part of what the Sighted Moon ministry is all about. End time prophecies all of a sudden are not our concern and if we did not pay attention to those who seemingly were beating us up over those hard to understand scriptural concepts that said*

*"Repent, Teshuva now before it is too late," we may have missed the boat. Torah is not really "Law", it is the instructions on how to live on this earth, IF you want to become a "SON Of the Living Elohim". Those who do not desire that, need not obey anything in Torah. However they will wind up someplace other than in the Kingdom as the Bride.*

*In my opinion, Joseph is not just talking about the absolute end of the World as we know it as much as he is warning us of the imminent, totally unknown day of our death and separation from the Physical body. My brothers and sisters, Joseph is doing just that. Prophets (those who teach truth from Torah) have been doing this for 2016 years, since the disciples asked Yehshua "when will the time of your coming be"? We are no different. We look for the end of the world and pay very little heed to the end of the world for us personally.*

*I encourage you to study from this perspective and apply the teachings to your life as if your salvation depended upon it TODAY. It may well be that today is the end of the world for some of us. I hope and pray I will see many of you in the Kingdom of YHVH through the mercies He expresses through Yehshua and His prophets. I thoroughly hope you will continue with Sighted Moon in the future. We are planning some exciting things. Shalom Aleichem*

*Jim Fincham*

*My name is James Relf and I was and am the technical expert for Sightedmoon. About a couple of months ago I was going through some very difficult situations in my personal life and as many of you know through the newsletters, and they can seem all consuming when you are going through them. I thought that the best course of action was to leave Sightedmoon and find full time work. Although I have not dealt with all of my problems, I can tell you that most of my problems were that I let them take precedence over my life instead of keeping my eyes on YHVH and letting Him deal with them.*

*I am writing to let you know that I am back with Sightedmoon, working alongside of Joseph to continue in assisting him with any technology issues he may encounter as we move forward. I will also be pursuing my first passion and that is to teach Torah, and in that light I will bring you our first bit of news.*

*About 14 years ago through the working of YHVH, I was introduced to Rev. Telesphore Ntashimikiro who is the bishop of Burundi, Africa. It is a small country with Rwanda above, and the Congo on the one side.*

*When I met Telesphore, we sat for more than 90 minutes and just talked about the Bible in a small back room of the house where in the next room they were having a huge get together for the future President of Burundi. It was truly as if YHVH had brought the two of us together for some greater reason. His only request to me after we finished was to return with him to Africa, and teach the pastors of his 65 churches that he had under him. While they were pastors, their knowledge of the Bible was still rudimentary and they had no concept of Torah, the Sabbath, Feasts or Sabbatical Years.*

*Of course at that time I could not go because it was not my time and I was still under YHVH's direction with many things yet to learn. During the past 14 years I have kept in touch with Telesphore, assisting where I could, guiding him when possible and sending him material when available.*

*Last year, Joe and I tried to make it over to Burundi to share with them. Again it was not meant to be. Now this sabbatical year just before Sukkot, we have decided it is time for me to go and fulfill my word to Telesphore and introduce to the people of Burundi the concepts and laws of Torah by teaching them as YHVH sees fit for me to instruct.*

*Although I am extremely excited, I take this very seriously and understand that while those who teach may have the greatest reward in the Kingdom, they also have the most serious punishment if they mislead the people. I have been preparing myself for the past 30 years to go to Africa and instruct others in the Word of YHVH, and I will do my best to represent His Kingdom while I am there.*

*After speaking with Bishop Telesphore this week I found out their situation is very serious after this last election. The economy is in a bad state and most of his flock are spending most of their days just trying to find food for their families. While we have things tough over here at times I think to be fair we need to keep things in perspective and consider that there are many others out there who desperately want to serve and be part of the Kingdom of YHVH, but their situation prevent them or inhibit them from being very serious. While i can instruct them about Torah, they very much need our help. Please pray and consider this the next time you go through your next testing from YHVH.*

*James Relf*

May Yehovah bless each and every one of you for keeping the Sabbatical year commandment and breaking the curses that are upon our nations because we have not kept them in the past.
